Leak Detection System

Leak Detection Detector

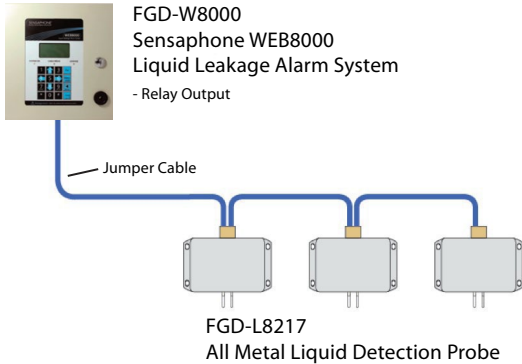

All Metal Liquid Detection Probe

Description

The Sensaphone FGD-L8217 All Metal Liquid Detection Probe is designed because of fire-rated consideration. It allows the monitoring for leaks in area where sensing cables would be difficult to install either because of the harsh operating environment in which detection is required, or the impracticality of installing lengths of sensing cable in vulnerable areas.

The diagram below shown a typical system configurations when using FGD -L8217:

FGD-L8217 has been designed for use with any of the Sensaphone Liquid Leakage Alarm System and has an equivalent cable length of 15m.
