

SENSAPHONE Monitoring Sensor

WSG30 Wireless Sensors

WSG Wireless Temperature Sensor with External Probe

Description

The WSG30 Wireless Temperature sensor with External Probe is designed to work exclusively with the Sensaphone WSG30. This sensor includes a built-in radio transmitter and a pre installed remote temperature probe so that temperature measurements can be made in a refrigerator, freezer or other harsh environment. The sensor comes with two AA alkaline batteries which will power the sensor for up to two years. An optional plug-in power supply is also available in which case the batteries become a backup if main AC power fails.

Specifications

Package Contents

- (1) WSG Wireless Temperature Sensor
- (2) AA Alkaline batteries
- (1) Mounting kit
- (1) FGD-0101 Weatherproof Temperature Sensor w/12' wire

Temperature Range (Probe):

-20° to 115°F (-28° to 57°C)

Temperature Range (Base):

32° to 122°F (0° to 50°C)

Sensor type:

2.8K Thermistor

Accuracy:

± 1.0°F (± 0.56°C)

Range:

Up to 300' (90m)

Power Requirements:

(2) AA Batteries / 5VDC Power Supply (Router Mode)

Wireless Technology:

ISM 2.4GHz, 100 mW (20dBm)

Housing:

White plastic

Size:

3.1" x 3.8" x 1.1"

7.9cm x 9.8cm x 2.85cm

Compatibility:

WSG30
