

Sensaphone Sentinel

Cloud-based Remote Monitoring and Alarm Notification

Available Sensors:

- FGD-0101
2.8K Weatherproof
Temperature Sensor
- FGD-0107
2.8K Temperature
Sensor with Glass
Bead Vial
- FGD-0006
Magnetic Reed Door
& Window Switch
- FGD-0109
Temperature and
Humidity Sensor
- FGD-L8215
Spot Type Water
Leakage Detector
- FGD-0056
Zone Water
Detection Sensor
- FGD-0222
Float Switch

SCD-1200-CD-INT Sensaphone Sentinel

The physical device is a ruggedized unit with a clear protective cover. It features a control panel with 'ACKNOWLEDGE/STANDBY', 'ON', 'OFF', 'POWER', 'ONLINE', and 'STANDBY' buttons. Below the panel is an 'ALARMS' indicator with 12 red LEDs. At the bottom, there are 'POWER' and 'ETHERNET' ports, and a 'Relay Output' port. A 'Remote Annunciator' (FGD-0088) is connected to the 'Relay Output' port. The device is connected to a 'Universal Input x 12' port via multiple wires.
